MUSA

Complete digital presence for museums.

THE PROBLEM

Small and mid-sized museums hold valuable collections with no digital presence. Agencies, generic platforms and bespoke projects all fail them.

THE SOLUTION

— Elegant website with a searchable catalog
— Interactive 3D, on the visitor's own phone
— AI assistant that cites the official record
— Store, cinema and digital twin, by plan

WHY MUSA

— The museum legally owns its collection — no lock-in
— Centralized operations: a new museum live in days
— LGPD and WCAG AA compliance from day one

PROOF, NOT PROMISE

36 s median to publish a piece · 455 records in the demo museum · test gate with a misuse battery

BUSINESS MODEL

Bronze R$ 597 · Silver R$ 1,197 · Gold R$ 3,197/month, plus add-on modules. Marginal cost per museum near zero.

MARKET

3,902 museums mapped in Brazil (Museus BR / Ibram, 2024) — most with no technical staff.

WHAT WE'RE LOOKING FOR

Seed investment or incubator · a pilot museum · 3D-scanning partners

See it all working live: agua-games.github.io/DemoMuseum — an Agua Games product
